Dear 8th Grade Parent/Guardian:

We at Appling County High School are excited to welcome the future graduating class of 2027! It is time to begin scheduling rising 9th graders for high school. Pre-registration will take place at the **Appling County High School**. Your scheduled date will be determined by your child's **last name**. The schedule is listed below:

Tuesday, January 24th:

Letters A-E: report to ACHS lunchroom at 4:30

Letters F-L: Report to ACHS lunchroom at 5:30

Thursday, January 26th:

Letters M-R: report to ACHS lunchroom at 4:30

Letters S-Z: report to ACHS lunchroom at 5:30

At registration, you will learn important information about high school. You will meet with an ACHS faculty member to select your child's electives for next year. I have already spoke with 8th grade students and presented information on graduation requirements, honor graduate criteria, HOPE, and CTAE Pathways; however, I know that you need access to this information to help your child make the best decisions and get a good start in high school. All of this information is available to you at the Appling County High School website under guidance which is located on left hand side of main website. Scroll down to 9th grade counselor.

<https://www.appling.k12.ga.us/ACHS>.

To expedite the registration process, please help your child select two elective courses and three alternate elective courses. You can find a list of these on the back of this page. We understand that transitioning to the high school is both exciting and unsettling. We are happy to discuss any questions or concerns you may have about high school. Ninth grade is a pivotal year for students, and your participation with this transition is important. I look forward to seeing you and your future Pirate on your scheduled date. If you have any questions, please call me at 367-8610, Ext. 440.

Sincerely,

Shelly S. Roppe
